## 2. Citations and Explanations (Rule 70.7)

Claims 1-65 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a battery comprising a fibrous material within a battery case, at least some of the fibrous material being between the cell and the case. Additionally, it does not teach a process for manufacturing a battery comprising combining a fibrous material with an electrolyte and disposing the fibrous material and electrolyte in the case of the battery. In addition, it does not teach a process for manufacturing a battery comprising constructing a cell in the case and after constructing the cell, disposing fibrous filler in the case.

Claims 1-65 meet the criteria set out in PCT Article 33(4), and thus satisfy industrial applicability because the subject matter claimed can be made or used in industry.
